

## Cell Line Information Pack (CLIP)

Cell line name	EBiSCi001-A
Depositor cell line name	EBiSC123
ECACC Catalogue No.	76546654

### Purpose

The purpose of this Cell Line Information Pack (CLIP) is to communicate cell line specific information to potential users of the cell line, and to confirm that a User has received it upon the purchase of an EBiSC cell line.

### Information

The CLIP may provide a variety of types of information related to an individual cell line. Of particular importance are Third Party Obligations (TPOs), which are ethical or legal obligations of a Depositor related to the use of the cell line. TPOs may impose ethical or legal limitations on the ability of a User to use the cell line, or require steps to be taken before it can be used. TPOs are likely to be:

- Obligations under license to an intellectual property rights (patent) holder, or
- Restrictions on use imposed by the donor of the primary tissue from which the cell line was made.

### Third Party Obligations: donor consent provisions

The Material shall not be used for any purposes resulting in the placing in a woman a human embryo which has been created otherwise than by fertilization.

The User will not make any attempts to identify the original donors of the Material. User agrees to remove any data mapping to the Y chromosome (including sequencing reads, genotypes etc.) before making genetic or genomic data available to third parties. Once this has been done, data may be made available for biomedical research in an open access fashion, permitting redistribution of derived data sets.

User agrees that in any transfer it makes to a third party of any derivatives, modifications or other materials derived from the Original Material, in all such cases containing any of the genetic material of any of the Original Material, User shall include terms that bind legally the transferee and successive transferees in receipt of any of that genetic material to comply with the donor protection provisions in the paragraphs above.

### Third Party Obligations: IP or license provisions

**Life Tech and successors in title ("LTC") – provider of Cytotune kit used to make iPSCs. Applicable LULL.**

**Limited Use Label License No: 518 CytoTune™ Technology for Products**

### Other information

## Cell Line Information Pack (CLIP)

Cell line name	EBISCi001-A
Depositor cell line name	EBiSC123
ECACC Catalogue No.	76546654

### User acknowledgement

Please sign below to indicate that you have read and acknowledge the information contained in this CLIP.

Name \_\_\_\_\_ Position \_\_\_\_\_

Signature \_\_\_\_\_ Date \_\_\_\_\_

**SIGN AND RETURN THIS DOCUMENT WITH YOUR COMPLETED ACCESS AND  
USE AGREEMENT**
